## Cow Heart Dissection/ Identification - YouTube

The heart dissection is probably one of the most difficult dissections you will do. Part of the reason it is so difficult to

# Access Free Anatomy Lab

learn is that the heart is not perfectly symmetrical, but it is so close that it becomes difficult to discern which side you are looking at (dorsal, ventral, left or right). Finding the vessels is directly related to being able to orient the heart correctly and figuring out which side you are looking at.

## Dissection

Heart Dissection : 8  
Steps (with Pictures) -  
Instructables

1. Place a heart in a dissecting pan & rinse off the excess preservative with tap water. Pat the heart dry.
2. Examine the heart and locate the thin membrane or pericardium that still

# Access Free Anatomy Lab

covers the heart. The pericardium or pericardial sac, is a double-layered closed sac that surrounds the heart and anchors it. The pericardium
