Modeling

Basic Wax Modeling: An Adventure in Creativity by Hiroshi Tsuyuki (2019, Artisan Ideas) is used as a textbook for the Jewelry Studies Institute in Tokyo, Japan for good reason: it is an excellent introduction to the art of lost wax casting. Lost wax casting is a common jewelry design technique that was first invented in the 8th century.

It might be useful to have read the first volume ('Basic Wax Modelling', printed in 1985) before this 1993 volume but it is still a good stand-alone text. My immediate response to this one was to obtain the first volume too. Originally written in Japanese by Hiroshi Tsuyuki and Yoko Ohba it is translated extremely well by Susumu Satow.

Basic Wax Modeling: An Adventure in Creativity by Hiroshi ...

Basic Wax Modeling will probably suit those crafters who are ready to take their first steps toward original designs. It's likely too simple for advanced designers, who will have their own sources. Nevertheless, it's a good addition to the practical library of budding jewelry makers and its lessons may be applicable to other craft areas (such as the design of tabletop game figures).

beginner to grasp how to do the modeling projects. Basic Wax Modeling: Hiroshi

[Basic Wax Modeling - orrisrestaurant.com](http://orrisrestaurant.com)

Lost-wax process, also called cire-perdue, method of metal casting in which a molten metal is poured into a mold that has been created by means of a wax model. Once the mold is made, the wax model is melted and drained away. A hollow core can be effected by the introduction of a heat-proof core that prevents the molten metal from totally filling the mold.
