No matter what your reasons are, changing your handwriting is a simple process that involves patience and practice. Take some time each day to write instead of type. An easy way to get your practice is to start journaling. If you aren't sure what to write about in your journal start by making notes on your handwriting practice. While it will take some time to see changes, a journal gives you a good record to look back and see the progression of your efforts.

Sometimes, that means your handwriting will change between contexts within the same period of time: A message on a card, for instance, will look a lot different than notes you've jotted down during a meeting. Frequency, too, can play a role in morphing your writing – like anything else, handwriting becomes rusty with disuse.

Why Your Handwriting Keeps Changing, Even in Adulthood ...

If you always get comments on how sloppy your handwriting is, maybe you're ready to change it up. You can simply improve it with a few tips or by focusing on how you make your letters. However, if you want a different style completely, that will take more practice, though it is still doable. Making
