A developer's summary of Consciousness and the Social Brain " Consciousness and the Social Brain " is a book by Princeton neuroscience professor Michael Graziano, outlining his theory of consciousness - the attention schema theory. This is a developer's summary only in that I can't imagine many other people having much interest in this website.

leontrotski - Consciousness and the Social Brain
The theory seeks to explain how an information-processing machine such as the brain can insist it has consciousness, describe consciousness in the magicalist ways that people often do, assign a high degree of confidence to those assertions, and attribute a similar property of consciousness to others in a social context. AST is about how the brain builds informational models of self and of others, and how those models create physically incoherent intuitions about a semi-magical mind, while at ...

Graziano Lab: CONSCIOUSNESS AND THE SOCIAL BRAIN
Social theories, which begin with the observation that the cognitive machinery involved in understanding and predicting other minds is also the same machinery in understanding ourselves. In other words, consciousness is our theory of mind turned toward ourselves. Graziano accepts these theories as valid, but incomplete.

Consciousness and the Social Brain: A review ...
One possible explanation of consciousness, proposed here, is that it is a construct of the social perceptual machinery. Humans have specialized neuronal machinery that allows us to be socially intelligent.
