Discover and record the story of the person central to your existence, your mother.

The true story of an ordinary boy's most extraordinary journey following a car accident that left him paralyzed offers new insights on miracles, life beyond this world and the power of a father's love.

This little book is full of ideas for shadows that children can bring to life with their hands. Each page shows how to achieve the correct hand shape and position, as well as an image of how the silhouette should look. Kids will be amazed at what they can create with just their hands, a lamp and a little imagination. Illustrations: Full colour throughout

What you believe is everything! Believing the right things is the key to a victorious life. In THE POWER OF RIGHT BELIEVING, Joseph Prince, international bestselling author and a leading voice in proclaiming the gospel of grace, unveils seven practical and powerful keys to help you find freedom from every fear, guilt, and addiction. These keys come alive in the precious testimonies you'll read from people across America and around the world who have experienced breakthroughs and freedom from all kinds of bondages-from alcoholism to chronic depression-all through the power of right believing. God intends for you to live with joy overflowing, peace that surpasses understanding, and an unshakable confidence in what He has done for you. Get ready to be inspired and transformed and learn how to win the battle for your mind by developing habits for right believing.

#1 NEW YORK TIMES BESTSELLER A landmark volume in science writing by one of the great minds of our time, Stephen Hawking's book explores such profound questions as: How did the universe begin-and what made its start possible? Does time always flow forward? Is the universe unending-or are there

boundaries? Are there other dimensions in space? What will happen when it all ends? Told in language we all can understand, *A Brief History of Time* plunges into the exotic realms of black holes and quarks, of antimatter and “arrows of time,” of the big bang and a bigger God—where the possibilities are wondrous and unexpected. With exciting images and profound imagination, Stephen Hawking brings us closer to the ultimate secrets at the very heart of creation.

The perfect Christmas gift, this collection of historic Christmas stories includes pieces from literary giants such as John Henrik Clarke and Langston Hughes as well as gems from rediscovered writers.

The Bible As History by Werner Keller, will take you on a breathtaking journey to the heart of Holy Scripture as it pieces together one of the most stunning spiritual puzzles in the history of mankind.

Insects will be appearing on our store shelves, menus, and plates within the decade. In *The Insect Cookbook*, two entomologists and a chef make the case for insects as a sustainable source of protein for humans and a necessary part of our future diet. They provide consumers and chefs with the essential facts about insects for culinary use, with recipes simple enough to make at home yet boasting the international flair of the world’s most chic dishes. Insects are delicious and healthy. A large proportion of the world’s population eats them as a delicacy. In Mexico, roasted ants are considered a treat, and the Japanese adore wasps. Insects not only are a tasty and versatile ingredient in the kitchen, but also are full of protein. Furthermore, insect farming is much more sustainable than meat production. *The Insect Cookbook* contains delicious recipes; interviews with top chefs, insect farmers, political figures, and nutrition experts (including chef René Redzepi, whose establishment was elected three times as “best restaurant of the world”; Kofi Annan, former secretary-general of the United Nations; and Daniella Martin of *Girl Meets Bug*); and all you want to know about cooking with insects, teaching twenty-first-century consumers where to buy insects, which ones are edible, and how to store and prepare them at home and in commercial spaces.
