AEC, Bristol, Crossley, Daimler, Dennis, Leyland and others were all manufacturers of passenger vehicle chassis which could be seen throughout the country in the years following the end of World War Two. They produced a wide range of double deck and single deck buses and coaches, bodied by a considerable number of body builders. With the exception of Dennis, all those chassis makers have now disappeared, along with nearly all the body builders. In addition, most operators of this variety of vehicles are no longer in existence, being primarily absorbed into larger operations. This book can only give a small indication of the major role Steve and his Quantock Heritage fleet have played in preserving not only part of the engineering history of this country, but its effect also on social history. In practical terms he has displayed this by enabling the general public to see, enjoy, and also use vehicles of a bygone era.

Join the Stickmen on a fascinating tour of monster vehicles, transporters, and construction tools. You'll discover some of the largest machines in existence and see the Stickmen (accidentally) test the limits of gravity!

Douglas Coupland takes his sparkling literary talent in a new direction with this crackling collection of takes on life and death in North America -- from his sweeping portrait of Grateful Dead culture to the deaths of Kurt Cobain, Marilyn Monroe and the middle class. For years, Coupland's razor-sharp insights into what it means to be human in an age of technology have garnered the highest praise from fans and critics alike. At last, Coupland has assembled a wide variety of stories and personal "postcards" about pivotal people and places that have defined our modern lives. Polaroids from the Dead is a skillful combination of stories, fact and fiction -- keen outtakes on life in the late 20th century, exploring the recent past and a society obsessed with celebrity, crime and death. Princess Diana, Nicole Brown Simpson and Madonna are but some of the people scrutinized.

For the first time the story that is taught in business schools around the world is told from the inside. Haier purpose is a comprehensive guide to the strategies and innovation that made Haier the global phenomenon that it is today.

A must for all ERF fans, this is the third and final installment in The Lorries of Arabia series. While the first book paid tribute to ERF's world-class long-haulers in the Middle East and those who drove them and the second book went on to explore the fortunes of this legendary machine, this final volume is a continued narration of an unfolding history in the 1970s and 1980s of a premium tractive unit model. With new findings, new details, new insights, and new pictures, readers of the first two books will surely enjoy the final volume of this acclaimed series. Containing a full register of all the 91 NGCs known to have ever been built, this is the enthusiast's guide to the rugged, reliable, left-hand drive tractive unit forever associated with long-haul European and Middle Eastern routes of the 70s and 80s.

The 8th book in the high-action JO MODEEN series. When an LNG tanker is sunk in the Philippine Sea north of Papua New Guinea, the CIA suspects an international cartel is responsible and that Australia's LNG plants are at risk. NatSec is called upon to assist and Modeen's team is deployed undercover. Their assignment: gather what intel they can and suspect everyone. Just how far will the saboteurs go? What - or who - is their next target?

This is the eBook version of the printed book. Microsoft provides a fantastic new business diagramming engine in PowerPoint 2007, Word 2007, and Excel 2007 in the form of SmartArt[™] graphics. The new SmartArt[™] graphics allow you to create process charts, radial charts, organization charts, and more. Leverage the themes and styles Microsoft provides in Office 2007 or customize the art to make your own designs. This book covers all the drawing tools in Microsoft Office 2007. Using SmartArt[™], WordArt or Shapes, you can create eye-catching documents that will get noticed. Dress up your next presentation with colorful business diagrams. Create better documents in Word 2007, Excel 2007, and PowerPoint 2007. Add glow, bevel, reflection with just a few mouse clicks. Generate professional organization charts. Design your own layouts: Don't be stuck with what Microsoft shipped in the box. Construct dynamic shapes with text calculated from Excel. Table of Contents Introduction Chapter 1: Creating SmartArt Graphics Chapter 2: Modifying SmartArt Graphics Chapter 3: Gallery of SmartArt Graphics for Lists Chapter 4: Gallery of Process Charts Chapter 5: Gallery of Cycle and Radial Charts Chapter 6: Gallery of Relationship Charts Chapter 7: Gallery of Hierarchy, Pyramid, and Matrix Charts Chapter 8: Creating Organizational Charts Chapter 9: Adding New SmartArt Graphic Layouts Chapter 10: WordArt Chapter 11: Shapes

The seminal, uncollected essays—lauded as “dazzling” (The New York Times Book Review)—by the late Christopher Hitchens, author of the #1 New York Times bestseller *God Is Not Great*, showcase the notorious contrarian’s genius for rhetoric and his sharp rebukes to tyrants and the ill-informed everywhere. For more than forty years, Christopher Hitchens delivered essays to numerous publications on both sides of the Atlantic that were astonishingly wide-ranging and provocative. His death in December 2011 from esophageal cancer prematurely silenced a voice that was among the most admired of contemporary voices—writers, readers, pundits and critics the world over mourned his loss. At the time of his death, Hitchens left nearly 250,000 words of essays not yet published in book form. “Another great book of essays from a writer who we wish were still alive to produce more copy” (National Review), *And Yet...* ranges from the literary to the political and is a banquet of entertaining and instructive delights, including essays on Orwell, Lermontov, Chesterton, Fleming, Naipaul, Rushdie, Orhan Pamuk, and Dickens, among others, as well as his laugh-out-loud self-mocking “makeover.” The range and quality of Hitchens’s essays transcend the particular occasions for which they were originally written, yielding “a bounty of famous scalps, thunder-blasted targets, and a few love letters from the notorious provocateur-in-chief’s erudite and scathing assessments of American culture” (Vanity Fair). Often prescient, always pugnacious, formidably learned, Hitchens was a polemicist for the ages. With this posthumous volume, he remains, “America’s foremost rhetorical pugilist” (The Village Voice).
