NOTES AND SCALES 4.1. Octaves and the Major-Minor Tonal System \* Where Octaves Come From. Musical notes, like all sounds, are made of sound waves. The sound waves that make musical notes are very evenly-spaced waves, and the qualities of these regular waves – for example how big they are or how far apart they are –

Why You Want to Learn One Octave

# Access Free Notes Octaves Scales And Modes

Scales. One of the reasons you want to learn one-octave scales is because of their simplicity. By using only one octave it ' s easier to see the shape and structure of the scale, the notes within the scale, and the intervals. The scale is more user-friendly, easier to play, memorize and apply around the fretboard.

of the G major Scale). The notes of E minor are the same as G Major. Then click on G Major. Only the root note (our starting point) changes. Once you learn all the modes ...

# Access Free Notes Octaves Scales And Modes

Musical modes are a type of scale with distinct melodic characteristics. The 7 modes, Ionian, Dorian, Phrygian, Lydian, Mixolydian, Aeolian and Locrian, come from the earliest forms of western music. Before we figured out the math for dividing the octave into 12 equal tones, we had to make do with an imperfect system. Modes

Scales are typically listed from low to high pitch. Most scales are octave-repeating, meaning their pattern of notes is the same in every octave (the Bohlen – Pierce scale is one exception). An octave-repeating scale can be represented as a circular arrangement of pitch classes, ordered by increasing (or decreasing) pitch class.
