Oxford University Press, New York, New York. 1999. ISBN 0-19-262515-2. The clinical and basic science of hepatology continues to expand at a dizzying pace, with the ongoing evolution of the discipline from a mainly descriptive role to a therapeutic one. Reflecting this vigor is the availability of several excellent general hepatology textbooks ranging from the encyclopedic to the more focused either on basic science or clinical hepatology.
