This book constitutes the refereed proceedings of the 5th International Conference on Convergence and Hybrid Information Technology, ICHIT 2011, held in Daejeon, Korea, in September 2011. The 94 revised full papers were carefully selected from 323 initial submissions. The papers are organized in topical sections on communications and networking, intelligent systems and applications, sensor network and cloud systems, information retrieval and scheduling, hardware and software engineering, security systems, robotics and RFID Systems, pattern recognition, image processing and clustering, data mining, as well as human computer interaction.

Super Minds is a seven-level course for young learners. This exciting seven-level course enhances your students' thinking skills, improving their memory along with their language skills. Super Minds develops creativity with visualisation exercises and art and craft activities, explores social values with lively stories and encourages cross-curricular thinking with fascinating 'English for school' sections. For ease of use, this Level 1 Teacher's Book is interleaved with pages from the Student's Book. It includes detailed lesson aims, clear instructions and a vast array of extra activities.

The heyday of the televised rocketman came before our actual travels in space occurred and was a burgeoning time in TV history. Before astronauts like John Glenn, Alan Shepard, and Neil Armstrong were household names, before the 'one small step' that left America's national footprint on the Moon, and before the wonders of science fiction became the wonders of science fact, battles were fought with Para-Ray guns and Cosmic Vibrators, 'Opticon Scillometers' scanned through walls, heroes in jetpacks soared through the skies, and the universe was full of wonder. The fourteen essays featured here focus on series such as Space Patrol, Tom Corbett, and Captain Z-Ro, exploring their roles in the day-to-day lives of their fans through topics such as mentoring, promotion of the real-world space program, merchandising, gender issues, and ranger clubs - all the while promoting the fledgling medium of television.

Collins International Primary Maths supports best practice in primary maths teaching, whilst encouraging teacher professionalism and autonomy. A wealth of supporting digital assets are provided for every lesson, including slideshows, animations, tools and games to ensure they are rich, lively and engaging.

Greenman & The Magic Forest is an enchanting pre-Primary course based on the adventures of two children, Nico and Sam and their encounter with the magical protector of the forest - Greenman. The Pupil's Book includes colour pages as well as stickers and pop-outs. The wide format and spiral binding are easy for young children to manage as they learn to locate pages with page numbers and work within the book. The book includes tear-off worksheets so the teacher has the option of sending home individual worksheets for pupils to review. On the back of each worksheet brief teacher's notes have been provided, with song lyrics and key language.

Super Minds is a seven-level course for young learners. Written by a highly experienced author team, Super Minds enhances your students' thinking skills, improving their memory along with their language skills. This Level 6 Workbook includes activities to develop language creatively, fascinating cross-curricular sections and lively stories that explore social values. For each Student's Book page, this Workbook features a page of activities. Class Audio CDs, including audio from the Student's Book and Workbook, is sold separately.

Flash Gordon, Flash Gordon's Trip to Mars and Flash Gordon Conquers the Universe, the most expensive and popular movie serials ever made, have been favorites of movie and comic fans for decades. The original 1936 serial, designated a cultural treasure, was selected for inclusion in the National Film Registry in 1996. Arranged in a chapter-by-chapter format conforming to the structure of the three original serials, the work provides full cast and crew information, plot synopses, and production notes for all 40 episodes. The work also has a wealth of background information and 159 photographs, along with comments from cast members interviewed\u2022Buster Crabbe, Jean Rogers, and Carroll Borland. Appendices provide an overview of the serial Buck Rogers (1939), select filmographies for 50 of the most prominent Flash Gordon cast and crew, and a complete list of the serials' film and television remakes.

Super Minds is a seven-level course for young learners. Super Minds, from a highly experienced author team, enhances your students' thinking skills, improving their memory along with their language skills. This Level 1 Workbook includes exercises to develop creativity, cross-curricular thinking with fascinating 'English for school' sections and lively stories that explore social values. For each Student's Book page, this Workbook features a page of activities. Includes full-colour picture dictionary!

Before Star Trek, there was Space Patrol. Science fiction television has its roots in this live, action-packed series that captured the imagination of Americans from 1950 to 1955, when space travel was just a dream. This book explores the freewheeling spirit of live TV, where anything could go wrong before millions of viewers—and often did. It spotlights (often in personal interviews) the risk-taking Space Patrol cast and crew who laid vital groundwork for television today. Included are episode logs for both television and radio shows as well as a complete guide to Space Patrol memorabilia.

Get Rolling on Your Most Inventive Artwork Ever! What lurks in the shadows of your imagination? This book takes you deep into the dusty corners and dark recesses where your most original ideas lie in wait, showing you how to lure them out into daylight, and shape them into fantastic yet believable concept art. Experimentation is the cornerstone of Fantasy Genesis. A series of dice rolls and corresponding word lists present you with an infinite variety of jumping-off points and visual problems to solve. The challenge (and the fun) is to meld seemingly unrelated and everyday elements such as a caterpillar, seashells, fire or a hammer into exceptionally curious, grotesque, oddly beautiful and totally unexpected creations. 40+ step-by-step mini-demonstrations illustrate basic techniques for drawing a wide range of fantasy elements and forms 3 game variations (complete with game sheets) lead you to create fiercely imaginative objects, creatures and humanoids 3 full-length demonstrations show how to play the game from your first rolls of the die to finished concept drawings Use this art-game as a warm-up, a bulldozer for creative-block or a daily sketching exercise to generate a stockpile of inspired beasts, heroes, costumes, weapons and other never-before-dreamt creations. It all starts with a roll, a word and your imagination.
