The disorder has been subdivided into bipolar I, bipolar II, cyclothymia, and other types-bipolar spectrum: Bipolar I: is distinguished by the presence or history of one or more manic episodes or mixed episodes with or without major depressive episodes. A depressive episode is not required for the diagnosis of Bipolar I disorder, but depressive ...

IBBMED » Bipolar Disorder & Cyclothymia

Cyclothymia has many similarities to bipolar disorder. Most people's symptoms are mild enough that they don't seek mental health treatment, or the emotional highs feel nice, so they don't realise there's anything wrong or want to seek help. This means cyclothymia often goes undiagnosed and untreated.
